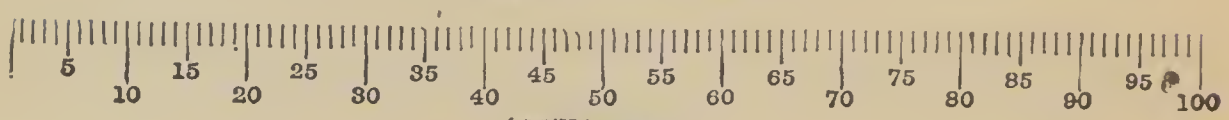
PREFACE.

This collection will at once commend itself to all collectors who travel out of the regular American series in search of interesting or historical pieces. To such the large number of siege pieces must prove an irresistible attraction. We annex a cut of the scale by which the coins in this catalogue are measured.



(*Millimeters.*)

Collectors who have not had experience in purchasing at auction sales, on account of living at too great a distance from New York, may have their orders executed by the Auctioneers, Messrs. Scott & Company, or other dealers, for a commission of 10 per cent. on amounts under $100; over $100, 5 per cent.; a uniform charge of 50 cents made on any amount under $5.

In reference to the method of selling at auction, we would say that each lot is sold to the highest bidder, at so much for each coin or article, so if you desire a lot of coins which contains 10 pieces and you wish to pay $1.00 for it, you should bid 10 cents *each.* Always state your highest price, relying on the honor of those you employ to make the purchases for you at the lowest possible figure.

The coins will be on exhibition at the Auction Rooms, on the day of Sale, from 10 A. M. to 5 P. M.

SCOTT & COMPANY.

Note.—Every coin catalogued is warranted genuine, unless otherwise mentioned.
